Statements made by Mr. Robert Brocoio, Assistant United States Attorney, Los Angeles, California, will need this House Select Committee’s investigation. Mr. Brocoio is withholding information pertinent to the investigation by this House Select Committee of John F. Kennedy’s assassination.

All Federal District Judges at Dallas, Texas and Los Angeles, California refused to aid me and help in the matter of learning the truth regarding their U.S. Probation Officers and their (U.S. Probation Officers), concealing and hiding the truth as to my whereabouts at the time former president John F. Kennedy was assassinated.

United States Senators, Talmadge, Church, Schweiker, Hart, Tunney, Boggs and others have corresponded with me regarding their not being able to help me in learning the truth in the Kennedy death matter.

Former Attorneys General State, Levi and the Honorable present Attorney General Griffin Bell have not lifted one finger nor have they written one letter to aid me in my pursuit and aim in trying to clear my name and my family’s name of the stigma attached to our names by authors and journalists charging my connection in a conspiracy connected with the Kennedy assassination.

I have written over 150 letters to U.S. Congressmen and urged them to vote for the resolution which established this House Select Committee on assassinations.

In order for the American people to learn the truth regarding the assassination of former president John F. Kennedy, and for confidence to be restored in the Government by the American people, this House Select Committee must put to rest as many of the issues, theories and speculations as possible, dreamed and stated by authors and journalists in their incorrect and libelous publications.
