

vitreous fluid and blood was coming out of my eye.

Q. And do you know what vitreous fluid is?

A. Yes, I do.

Q. And what is it?

A. It's fluid in your eye that supports the eyeball and the whole eye system. It's a sticky, clear sticky, clear fluid, but mine had blood in it.

Q. Now, when other people from the bar arrived, did they at that time, were they able to get control of Mr. Elbery?

A. They I said, you know, "Just hold him till the police get here, and somebody's got to get me to the hospital or I'm going to lose my eye. "

Q. And did you go to the hospital?

A. Yes, I did.

Q. And did you seek treatment at the hospital?

A. Yes, I did, Memorial Hospital.

Q. And how long were you at the hospital?

A. I want to say probably four hours, three or four hours. I was treated by an eye surgeon, ophthalmologist, sent home and had to return to the ophthalmologist's office in the morning.
