

Q. Do you know what they did to your eye at the hospital?

A. They they froze my eye, they treated it with antiseptic. They gave me a shot for tetanus and they put dye on the eye, found that I had a laceration of the eyeball.

Q. Now, when you were sent home from the hospital, did you have anything on

A. I had a patch.

Q. You had a patch on your eye. How long did you have to keep the patch on your eye?

A. About three days.

Q. Now, prior to this incident, what was the state of your vision?

A. My vision was good.

Q. Is there any difference between your two eyes?

A. My left is my dominant eye. I have a problem with my right eye, and my left eye is my best eye.

Q. Did you have glasses at that time, before this incident?

A. Yes, I did.

Q. Did you wear them?
